Employee of the Quarter

Congratulations Daniel Fernandez

Daniel Fernandez has been instrumental with all the recent marketing efforts and I could not have completed some tasks without his work. Daniel has never complained nor had a negative attitude even when a request was made "last minute". Daniel is a full-time Roth Southeast employee handling these tasks above his everyday duties and a demonstrated team player. Although his work is not obvious to most employees, it is very intentional with a huge impact on our marketing efforts and brand.

*Meet Amelia June Fernandez
Born: Friday 02/28/2020 at 11:08 PM
Congratulations!*

Thank you,
Bernie Gonzalez

Miami Beach Convention Center: COVID-19 Alternative Care Facility Conversion

As of April 21, 2020, The Miami Beach Convention Center has been transformed into a temporary hospital. In just under two weeks, The Army Corp of Engineers lead the way of converting this facility into a 450-bed field hospital to assist in the recovery of Covid-19 patients.

Thermal Concepts received a PO to upgrade the air filtration from standard MERV 8 and MERV 10 filters to hospital-grade MERV 13 pre-filters and MERV 16 final filters. The PO was placed with WACO, and expedited filter production began in York, SC, and Joliet, Illinois.

The Government request ordered on April 6th was to expedite the 10-day manufacturing of all 1200 filters, direct shipped to the facility, and installed in all (40) AHU's servicing the A, B, C & D Halls of the Convention Center... all to be completed by the April 21st deadline and opening of the temporary hospital. This allowed Thermal Concepts only 4-5 days to get the job done.

As always, Team Thermal came together and got the job done. another job well done all around, starting with the Service Dispatch Department managing a critical schedule. Followed by the hard work and dedication of the project field leader Greg Kaouk putting together a select team of Service Technicians: Luis Guzman, Carlos Calderon, Abe Zakhra, Daril Gomez & Osnay Rodriguez.

A BIG THANK YOU to the entire Thermal Concepts Service Team for coming together as one in a great effort to produce world-class results. "Whatever it Takes"

Technician of the Month OTNIEL LINARES

Otniel Linares started as a welder and quickly proved he had the drive and skill set to be a true leader. His career here would portray the absolute ideal employee. His "no problem" attitude, combined with his friendly demeanor, is challenging to replicate. He has taken on a critical role in many of the largest projects in our region, adding his signature level of quality to everything he installs or closely supervises. He is a humble man with decades of knowledge that is happily shared to all under his direction or anyone seeking advice or help. He is truly an asset to the company and anyone lucky enough to have him as a friend.

Thank you,
Luis Jimenez

NEXT CLEAN UP IS August 22nd 2020. PLEASE SIGN UP WITH JOHN HALL

TGI has adopted a portion of Griffin Road just east of University. All TGI employees and their family members are welcome to help with the highway clean ups. You can expect to have some fun with your fellow co-workers while also doing your part for the community. Service hours are also given to any students in need! See John Hall in the warehouse for more information.
